

CALLING OF LOANS IS REACTIONARY

Favorable Incidents Were Ignored in the Stock Market Yesterday.

NEW YORK, April 23.—There was some calling of loans going on to-day by the banks, and the search for renewed accounts, while without violent effect on the call loan rate, apparently had the effect of inducing some speculators to liquidate. The call loan rate touched 2 per cent., which is higher than since the first week in January. There was no change in the general tenor of the news to account for the downward turn in prices.

Revised estimates of crop prospects continued to come in, indicating generally a reduced yield as compared with the severely impaired crop which was held in view while wheat prices were mounting by leaps and bounds. The calling of loans by banks evidently was for the purpose of meeting the demands on their resources in order to meet the successive issues of new bonds. Railroad corporations have figured chiefly in these new issues, but the announcement to-day for the sale of \$5,000,000 bonds by the Corn Products Company brought the industrialists into the representation.

Favorable incidents were ignored by the stock market, although there were some stocks here and there which made a show of strength. The belief is understood that an agreement is imminent between the anthracite miners and operators for a wage settlement. The more hopeful rumors of the completion of the new foreign coming report of the earnings of the United States Steel Corporation were heard still, but with impaired influence. The shorts showed some urgency to cover in the late market, but the closing tone of the market was generally weak and showed losses for the day. The closing prices of the principal stocks to-day, par value, \$5,000,000.

United States bonds were unchanged on call.

Total sales of stocks to-day were \$28,600 shares.
